

OUCH! CORNS!
LIFT CORNS OFF

Doesn't hurt a bit to lift that sore, touchy corn off with fingers.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. The pleasant little tablets do not irritate the bowels, but have no bad after effects. They do not injure the teeth like strong liquors or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquors. It is best not to take calomel, but let Dr. Edwards' Olive Tablets take its place. Most headaches, "dullness" and that heavy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they "clean" the bowels and how they "pick up" the spirits. See and see a box. All druggists.

YOU HAVE A MISERABLE COLD!

Won't take long for Dr. King's New Discovery to relieve it.

Chills, hot flushes, weepy eyes and nose, a cough steadily growing more persistent, phlegm-clogged chest, heavy head—these conditions are quickly and pleasantly corrected with Dr. King's New Discovery. Colds and coughs, most bronchial troubles soon submit to this fifty-year-old standby. Growups and children both like it. Promotes comfort and rest. Get this relief from "cold" misery. Buy a bottle while you think of it. All druggists. 60c and \$1.20.

Make Your Bowels Grateful

Help them to function as they ought to. Aid them occasionally with Dr. King's New Life Pills. Cleanse the system of undermining impurities. Mild in action, reliable and comfortable. Your druggist has them. 25c.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone! Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size \$2.50.

ARE YOU KEEPING UP WITH THE TIMES.

CIVIC BODIES ASK
SCHOOL PAY RAISE

An appeal for higher salaries for Washington public school teachers in order to alleviate "the deplorable conditions associated with the compensation of teachers" has been made to the Senate in a letter, signed by the leaders of the five most important civic organizations in the District.

The letter, which was sent to Vice President Marshall, reads: "To the Members of the United States Senate:

"The undersigned, representing the largest civic organizations of the District of Columbia, which in turn, we believe, truly represent the entire citizenship of the National Capital, respectfully and earnestly call your official attention to one of the most vital and pressing needs of this community.

"This need affects a phase of our civic life that is second to none in importance, and demands immediate relief. Unless remedial action is promptly taken by Congress, a condition that is already deplorable will be made disgraceful and a reflection on our Capital City.

"It is the need for a more adequate compensation for the teachers of our public school system.

"Many arguments and carefully compiled statistics have been presented to the House and Senate committees on the District of Columbia, and this information merits the serious consideration of every member of our responsible governing body. A careful study of the question will convince one of the urgency of the situation and of the necessity for a very substantial increase in the basic pay of our teachers.

"As a result of the insufficient salaries paid them, they have been leaving the school system in such large numbers that the entire efficiency of our educational system is threatened with collapse. It is not possible to exaggerate the urgency for prompt action.

"The letter was signed by Roy C. Claffin, chairman of the public schools committee, Board of Trade; Walter A. Brown, president, Board of Trade; Robert N. Harper, president Chamber Commerce; W. B. Westlake, president Federation of Citizens Associations; John F. Fols, president Rotary Club, and M. A. Lewis, president Merchants' and Manufacturers' Association.

PHILADELPHIA, Feb. 24.—Hundreds of delegates who have been in attendance at the Irish convention here were today returning to their respective States to begin raising a fund of \$1,500,000 to support the movement to bring freedom to Ireland.

A copy of resolutions offered by Cardinal Gibbons at the final session yesterday was being sent to Washington to be delivered to President Wilson. The resolutions call upon the President and Congress to "apply to Ireland the great doctrine of national self-determination and to recognize the right of the people of Ireland to select for themselves without interference from any other people the form of government under which in future they shall live."

The cardinal's resolutions were adopted unanimously, following which a declaration of principles, drawn and approved by a committee representing every section of the United States, was read and adopted. Among other things the declaration said:

"A state of war therefore exists between England and Ireland, which, in the interests of the peace of the world, the Peace Conference cannot ignore and President Wilson's great task of establishing permanent peace will not be complete until the Irish question is settled on the principle of self-determination to which he has unequivocally committed himself and the United States."

WESTERNERS GREET RETURNING YANKS

About forty men were guests yesterday of John Hays Hammond at his home on Kalorama road to listen to a report by Herbert Wall, secretary of the Rocky Mountain Club, of the activities of that organization in receiving and welcoming Western soldiers as they are landed at points of debarkation in this country.

In doing this work the Rocky Mountain Club represents all the Pacific coast and Western States, and is extending its welcome indiscriminately to men hailing from that part of the country.

There has been some delay on the part of some of the States in making appropriations to cover the expense involved, and the meeting was called by Mr. Hammond to awaken the interest of Western men in Washington to the necessity for prompt action on the part of Western legislators in making necessary appropriations.

A series of resolutions was adopted commending the work of the Rocky Mountain Club and urging the immediate response of Western legislators to the appeals for funds. The club's work in New York has attracted the attention of the War Department and its efforts to make the welcome home heartier and to protect and care for the Western men while they are in New York has had the hearty approval of war officials.

Editorial

Do you know that plants possess real sympathy for each other?

A begonia becomes very much attached to a fuchsia, and if the fuchsia is removed the begonia will be apt to show in its appearance that something is seriously wrong.

All the various things of this world do not occur in the animal kingdom. In fact some of the most marvelous phenomena appear in vegetable life.

Some scientists have even gone so far as to say that some day we will be able to prove that even plants have powers of REASONING.

When that day comes we will then KNOW absolutely that animals THINK, for they are of a much later stage of evolution than plants.

This world sure is full of wonderful and curious things. And, the more one knows the more he realizes how really little he DOES know.
